The Corn Situation.

Our reports show that cash corn is Prospects steady at yesterday's av- do:sed by President Wilson, bill to be selling from 72c to 90c around the

seven surplus states. The interior wheat price has firmed. Central Kansas reports wheat 80c and farmers holding.

The corn market gives evidence of being a continuous damage affair. Relapses after bulges should be awaited by investors. The seven surplus states should raise around 1,500,000,-000 versus 1,200,000,000 for 1913.

Last year the average September corn condition of the seven big states was 54 per cent-Missouri, 41 per cent; Nebraska, 37 per cent, and Kansas 10 per cent pulled down the average. This September if we place Ohio 80, Indiana 62, Minois 65, Iowa 85, Missouri 60, Nebraska 78 and Kansas 67, the big states would average around 70 per cent.

Indiana visitors say their corn has lost in past two weeks due, too dry. More than half of our corn reports received today from the surplus states claim rains have granted some im-

From Chicago down to Mattoon the crop looks decidedly better than one will raise more corn than anticipated. Rains have been a great help.

The corn plant in vast sections of the corn belt though fired, is well advanced and is not to be compared with the burning up of 1913. Thus-the seven states may raise 300,000,000 above 1913.

Wheat break of August 7 to 15 brought levels which should endure. It is the "immediate" in wheat which may possess a bulge sale tinge. Long temperatures were mainly 90 to 94 on distance factors were never more va-
